

Drug Interactions with Herbal Medicines

Herbal medicines can also cause dangerous drug interactions with Warfarin (Coumadin®). Keep in mind that just because an herbal product is advertised to be “*all natural*” does not necessarily mean it is *safe*. Below is a list of herbal products known to interact with warfarin. The list is not all inclusive. If you want to take an herbal supplement, it is *very important* that you contact your healthcare provider before taking it.

Agrimony
 Alfalfa
 Aloe Gel
